

## Technical data sheet

Bistro hygienic concentrate detergent

# F 300

Liquid, alkaline, active chlorine detergent especially for coffee and tea services

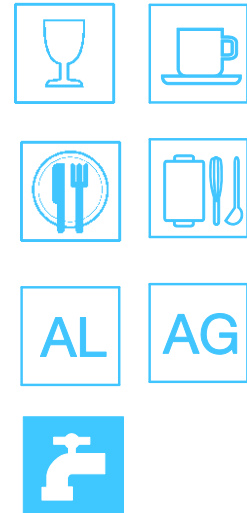

### Area of application:

- Suitable for professional front loading and rack pass through, rack conveyor dishwashing machines in restaurants, hotels, and commercial catering kitchens as well as bakeries and butcher's shops
- Suitable for all types of dishes made of glass, porcelain, plastic and stainless steel as well as for cutlery and equipment
- Effectively removes dried-on coffee and tea stains and other discolouration as well as lightly dried-on food remnants.

### Dosage:

2 to 4 ml/l via automatic dosing equipment, depending on the type of the dishes and the water quality.

Having the automatic dosing set on-site by Winterhalter customer service assures perfect wash result

### Product advantage:

- Highly concentrated
- Good cleaning performance
- Efficient grease and protein removal
- Outstanding bleaching

### Ingredients:

Alkalis, chlorine-based bleaching agents, phosphates, silicates

The special material protection formula is gentle on delicate dishes and prolongs the machine's service life.

## Technical data sheet

Bistro hygienic concentrate detergent

# F 300

### Delivery sizes:

5 l	PE 4 drum PE Carton
20 l	PE drum

### Technical Data:

Colour:	Yellowish
Odour:	product-specific
pH value:	Aprox. 14 (concentrated)
shelf life:	9 months
storage conditions:	cool, dark, upright, frost-free, max. 30° C
Density:	1.37 g/cm <sup>3</sup>
Viscosity:	Approx. 1 (at 20°C in mPa S)
Conductivity:	Approx. 3 mS/cm (at 4 ml/l in deionised water / 22°C)

### Important:

- This product is not intended for general public. For commercial use only!
- Storage and transport permissible only in original packaging in upright position. Do not expose to direct sunlight. Protect from freezing.
- Drum sprout are available to aid filling of the built in detergent containers. To avoid confusion, F300 detergent may only be filled in containers marked detergent.
- Never mix with other products and do not refill in other containers, bottles, etc.
- Containers, pipes and dosing equipment should be rinsed with fresh water before changing products..
- To ensure reliability and long life for your dishwasher all filters should be cleaned at the end of operation after the self-cleaning programme has ended. Leave the machine open slightly so the interior can dry in and order to build up corrosion protection.
- For cleaning and maintaining the stainless steel coverings of the machine we recommend Winterhalter C 112 Manual Dishwashing Concentrate as well as Winterhalter C 161 Stainless Steel Polish.
- You will find this product's safety sheet, technical data sheet, on our homepage at [www.winterhalter.com.my](http://www.winterhalter.com.my).
