

INDUCTION COOKER

Induc four-head induction cooker, a key component for commercial cooking needs.

This innovative equipment boasts energy efficiency, environmental friendliness, and safety features, eliminating open flames, gas leaks, and pollution.

Its high thermal efficiency, reaching 80%~90%, is complemented by a durable black crystal panel, resistant to high temperatures and waterproof for effortless cleaning. With its 4-head design, you can effortlessly switch between frying, boiling, and stewing, enhancing cooking efficiency. Operating at 3500W, it accelerates boiling and stir-frying, ensuring swift cooking.

The cooker's body incorporates six fans for rapid cooling, ensuring longevity. Its user-friendly design allows power adjustment according to your needs, ensuring both safety and convenience.

With a robust load-bearing capacity, it accommodates heavy catering needs. Compatible with various flat-bottomed pots and containers, this cooker is a versatile solution for professional kitchens.

Product Features

Induction Cooker

- Fast-heating, high-power induction stove head with efficient and stable performance
- SCHOTT glass panels of superior quality resist high temperatures, are waterproof, easy to clean, and highly durable, resisting breakage
- Individual temperature control for each burner, offering 10 adjustable heat levels
- Temperature alarm for high heat levels, ensuring automatic power-off protection
- Supplied on a closed cupboard stand
- Stainless Steel Construction
- Adjustable height non-slip feet, ensuring a secure and stable position
