

Special rinse aid

B 170 XD

Neutral highly concentrated rinse aid with drying accelerator

AREA OF APPLICATION:

- Suitable for use in commercial warewashers.
- Especially suitable for dishes made of plastic.
- Additionally suitable for dishes made of silver and aluminium.

For a perfect wash result with reusable plastic cups, we recommend using the specially developed Winterhalter system. In addition to the appropriate warewasher, chemicals and water treatment, Winterhalter offers special baskets for washing reusable plastic cups and bowls, to achieve a fast drying.

DOSAGE:

Via automatic dosing devices, depending on the material of the wash items and the water quality.

To achieve a perfect wash result, the setting of the dosage should be carried out on site by Winterhalter Customer Service.

The volume of the rinse aid does not depend on the water hardness, but on the dishes used.

A dosage of 0.3 – 0.5 ml/l is recommended for dishes made of plastic. A lower dosage is sufficient for other wash items.

The Winterhalter UC V02 and PT V02 contain a special programme for plastic wash items in which the recommended dosage is stored.

PRODUCT BENEFITS:

- Highly concentrated formulation
- Excellent dish wetting
- Excellent draining
- Fast, spotless draining even of plastic
- Stackability of reusable plastic cups

CONTENT MATERIALS:

Non-ionic surfactants, preservation agents, auxiliary agents

Product contains no phosphates.

Winterhalter products are totally free of NTA and EDTA.

Special rinse aid

B 170 XD

DELIVERY SIZES:

5 l	bottle
10 l	container

TECHNICAL DATA:

Colour	colourless
Odour	product-specific
pH value	8 – 9
Shelf life	24 months
Storage conditions	cool, dark, frost-free, up to 30 °C
Density	1.03 g/cm ³

DISPOSAL OF EMPTY PACKAGING:

- Completely emptied packaging is recyclable and can be disposed of by the end user in accordance with local regulations.
- Information on disposal of product residues can be found in the corresponding material safety data sheet.

IMPORTANT:

- Product is not intended for the general public. For commercial use only!
- Colour variations of the product are caused by raw materials and storage, but do not affect quality.
- Storage and transport of the product are only permitted when being in an upright position and in the original packaging. Do not expose to direct sunlight and protect from freezing.
- Never mix with other products and do not transfer the product into other containers, such as bottles, which are not intended for this purpose!
- Follow the operating instructions of the respective Winterhalter warewasher!

- A funnel (60 005 163) is available for the safe and exact filling of the integrated storage tanks in Winterhalter UC-models. To avoid confusion, rinse aid may only be filled in tanks with a blue flap colour.
- The rinse aid can be used in conjunction with all customary detergents for commercial warewashers and is suitable for use in the food sector.
- To support the self-cleaning programme of the warewasher, the Winterhalter A 15 MC cleaning tab is recommended.
- To ensure the durability and reliability of the warewasher, all filters should be cleaned at end of operation. To avoid corrosion, leave the machine slightly open so the interior can dry.
- For cleaning and maintaining the stainless steel coverings of the warewasher it is recommended to use Winterhalter A 162 stainless steel polish.
- The washing parameters should be kept in accordance with the DIN guidelines (DIN 10510 to 10512 and DIN 10522). Information of Working Party of Commercial Dishwashing should be kept in mind. In context refer to: www.akggs.de
- Product's material safety data sheet, technical data sheet and operating instructions are available on www.winterhalter.co.uk
